PROFESSIONAL SUMMARY

Software Engineering Student & Certified Project Manager ranked in the top academic tier (Rank 2 in Batch '27, Rank 5 in BSCSSE) at FEU Tech. Demonstrates robust technical capability in on-device edge AI systems, custom language interpreters, and geospatial intelligence platforms. PMI (Project Management Ready™) and SAP (SAP Activate) certified leader with extensive experience directing campus-wide logistics, coordinating institutional operations, and facilitating academic review sessions for 700+ STEM students.

PROFESSIONAL EXPERIENCE

iTamaraw Center for Academic Resources and Enrichment (iCARE) - FEU Institute of Technology 09/2023 – 12/2026

Student Assistant

- Facilitated peer tutoring and faculty-led midterm/final review sessions for **700+ students**, authoring tailored practice modules and reinforcing core STEM/computing curricula.
- Streamlined departmental operations by centralizing tutorial intake tracking, student documentation, and learning resource dissemination workflows.
- Delivered end-to-end administrative and logistical support for co-organized institutional academic events, ensuring seamless multi-venue execution.

EDUCATION

FEU Institute of Technology — *BS Computer Science with Specialization in Software* Manila, Philippines | 2023 – Present

Engineering

Regional Science High School III - STEM — *Senior High School Graduate (With High Honors)* Philippines | 2017 – 2023

SKILLS

Programming & Languages: Python, Dart (Flutter), Kotlin, TypeScript, JavaScript, C/C++, MATLAB, HTML5/CSS3

AI, ML & Edge Systems: ONNX Runtime, SigLIP-2 Embeddings, IVF-PQ Vector Search, INT8 Quantization, LoRA Fine-Tuning, DeepSeek API

Tools & Frameworks: Git/GitHub, REST APIs, Claude Code, SAP Activate, Agile/Scrum, Compiler/AST Architecture

CERTIFICATIONS

IT Specialist – Python (Certiport) • **PMI Project Management Ready™** (Project Management Institute) • **SAP Certified – Project Manager – SAP Activate** (SAP) • **Claude Code in Action** (Anthropic) • **Gemini Certified University Student** (Google) • **MATLAB Onramp** (MathWorks)

AWARDS

Top Performing Student for A.Y. 2025–2026 — *Rank 5 in BSCSSE, Rank 2 in Batch '27 | FEU Institute of Technology* 2026

Active Student Leader for A.Y. 2024–2025 — *FEU Institute of Technology* 2025

4th Place Finalist — *Code Green For Campuses: Call for Innovation, First Gen Corporation* 2024

Top Performing Student for A.Y. 2023–2024 — *Rank 7 in BSCSSE, Rank 2 in Batch '27 | FEU Institute of Technology* 2024

PROJECTS

CitySense – Geospatial Intelligence & Climate Cockpit 10/2025

Built for NASA Space Apps Challenge 2025, CitySense is an interactive geospatial intelligence cockpit for urban planners shaping climate-resilient policy. Streams live NASA, WorldPop, GHSL, and SEDAC data layers into a unified map interface, surfacing heat, greenspace, water, and equity indicators alongside a DeepSeek-powered AI planning assistant.

KitaKo – On-Device Multimodal Image Retrieval Framework 01/2026

Engineered an on-device semantic image search mobile application utilizing SigLIP-2 vision-language embeddings and IVF-PQ approximate nearest neighbor search via ONNX Runtime in Flutter. Processes Taglish natural language queries locally with zero server dependency and sub-second retrieval latency.

iCARE Room Reservation System

03/2026

Designed and deployed an internal room reservation web portal for university administrative staff, automating booking workflows, schedule visibility, and multi-room conflict checking for shared facilities.

BekiLang – Domain-Specific Language Compiler & Interpreter

03/2026

Developed a custom programming language built around Philippine Gay Lingo (Swardspeak). Built with a full lexer, parser, AST generation, and interactive web playground supporting complete control flow, typing, and standard I/O operations.

ORGANIZATIONS

Association for Computing Machinery (ACM) - FEU Tech Student Chapter

08/2025 – 08/2026

Student Coordinating Council Representative

- Served as primary institutional liaison between the ACM Student Chapter and the Student Coordinating Council, aligning organizational initiatives with university-wide policies.

FEU Tech Student Coordinating Council

08/2024 – 08/2025

Director for Logistics

- Directed end-to-end planning, resource allocation, and operational execution for campus-wide university events serving thousands of students.
- Managed venue reservations, technical equipment setups, and vendor coordination to ensure seamless on-ground delivery.

Association for Computing Machinery (ACM) - FEU Tech Student Chapter

08/2024 – 08/2025

Associate Director for Logistics

- Supervised logistics committees and junior officers across technical workshops, hackathons, and chapter general assemblies.

FEU Tech Student Coordinating Council

08/2023 – 08/2024

Junior Officer for Logistics

- Supported on-ground event operations, venue staging, and equipment procurement across council-led initiatives.

Association for Computing Machinery (ACM) - FEU Tech Student Chapter

08/2023 – 08/2024

Junior Officer for Logistics

- Executed physical logistics, inventory management, and material dissemination during student tech conferences and seminars.

FEU Tech Junior Philippine Computer Society

08/2023 – 08/2024

Junior Officer for Logistics

- Assisted in event check-in workflows, supply distribution, and venue preparation for departmental tech activities.
